connections between education and society by focusing on the voluntary pursuit of knowledge by those who were both older and more likely to be gainfully employed.

This first history of nontraditional education in America covers the span from Benjamin Franklin’s Junto to community colleges. It aims to unravel the knotted threads that link ideas with outcomes. The book attempts to go beyond theory and practice to develop a theory of education that links ideas with outcomes. The book takes a focused approach to examining the role of the Junto in the development of education and society. It also examines the role of the Junto in the development of education and society. The book concludes with a major synthesis of their ideas in jargon-free language. It is, therefore, indispensable to all students and practitioners of adult education and training.
